WORKS OF THE SCIENTIFIC RESEARCH ESTABLISHMENTS OF THE
HYDROMETEOROLOGICAL SERVICE FOR 1958 (CONTINUATION)

[Following is a translation of a list in Meteorologiya i Gidrologiya (Meteorology and Hydrology), No. 11, Moscow, 1959, pages 62-66.]

Transactions of the State Hydrological Institute

63. Investigations of the condition of ground waters, humidity of ground soils, and soil evaporation. Edited by V. F. Pushkarev. 86 pages, illustr, 1300 cop., 5 r. 75 k.

Popov, O. V. Study of ground waters during hydrological investigations.

Filippova, A. K. On the aqua-physical properties of the forest-type argillaceous soils of Sal'skiy steppe.

Filippova, A. K. Evaluation of the dampness of a water-collector from humidity resources in soil.

Struzer, L. R. On the sources of systematic errors in the gradient method of evaporation determination.

65. Methods of investigation and estimation of snow melt and of glacial phenomena. Edited by P. P. Kuzmin, 122 pages, illustr, 1250 cop., 6r.95k.

Kuzmin, P. P. Formula of estimated evaluation of snow melt and its use for the study of conditions on the territory of the European part of the USSR.

Kuzmin, P. P. Experience of investigation of the water yield from snow by means of radioactive cobalt.

Rymsha, V. A., and Donchenko, R. V. Investigation of temperature loss on open water surface in wintertime.

Chizhov, A. N. Toward the problem of the investigation of floating anchor ice phenomena on mountain rivers.

Berdennikov, V. P. Estimation of some elements of ice jams on the Angara and Yenisei rivers.

67. Problems of hydrological forecasting. Edited by O. A. Spengler. 100 pages w. graphs and maps. 1100 cop., 7r. 40k.

Makarevich, T. N., and Mytarev, N. M. Spring break-up of ice of rivers of Northwestern USSR and a method of its forecasting.

Gurevich, M. I. Forecast of the summer-autumn inflow into the water-reservoirs of hydro-electric stations with an estimate of losses.

Norvatov, A. M. Methodological foundations of the background or a long-term forecast of the summer flow of rivers of the forest-steppe zone of the European territory of the USSR.

69. Problems of the deformation of the banks of water reservoirs and river beds. Edited by N. E. Kondratyev and A. N. Lyapin. 148 pages, illustr., 1100 cop., 11 r.

Grigoryeva, O. G. Resistance of banks, piled up from cohesive and semi-rocky rocks, to wave action.

Sudol'sky, A. S. Resistance of mountain rocks to wave action.

Lyapin, A. N. Erosion capacity of a stream with layer displacement of detritus.

Kulemina, N. M. Investigation of the bed process of river Markha.

Bezyzvestnykh, A. V. On the construction of the current plan in cooling reservoirs.

Kudryashov, A. F. Reconstruction of the channel of a subsidiary type in laboratory conditions.

Yakunin, I. I. Channel investigations on the Polomet River and a method of estimating the height of water level elevations above gage.

Baryshnikov, N. B. Calculation of minimal transit depths on navigable rivers (in case of non-regulated flow).

Transactions of the State Oceanographic Institute

43. Edited by G. S. Ivanov. 116 pages, graphs and maps.
600 cop. 8r. 75k. Some results of hydrometeorological observations and investigations of the hydrometeorostation Neftyanye Ugli UGMS Azerbaydzhan SSR in the period from January 1956 to March 1957.
- Arkhipova, E. G., Lyubanskiy, V. A., Reznikova, L. P. Basic characteristics of the temperature regimen of the Caspian Sea and its regions.
- Baydin, S. S. The hydrological regimen of the Western steppes of the Volga delta.

44. -

- Sorokhina, A. I. Construction of maps of windfields for seas and oceans. Edited by Yu. M. Krylov. 75 pages, graphs and maps. 700 cop. 4r. 95k.

Transactions of the Scientific Research Institute of Aeroclimatology

4. Problems of mechanization of climatological processing. Edited by S. A. Sapozhnikova. 144 pages, illustr. 800 cop. 12r 10k.
- Evseyev, P. K., and Sapozhnikova, S. A. The experience of a climatological characteristic of interphase periods of development of the summer wheat crop.
- Sapozhnikova, S. A., and Terentyeva, T. M. On the precision of complex climate characteristics and its increase in the utilization of data for periods of different duration.
- Koloskov, P. I., and Nazarova, I. V. The velocity of wind in Moscow Oblast.

5. Problems of climatology. Edited by V. N. Sokolov, 80 pages, illustr., 1100 cop. 6r. 15k.
- Koloskov, P. I. Uninterrupted duration of different wind velocities in Leningrad (Petersburg) according to data for 10 years (1880-1889).

- Mertsalova, O. B. On the precision of calculation of several years' standing mean wind velocities in the free atmosphere.

Lobanova, V. Ya., Sokolova, M. V. The characteristic of low cloudiness in the Zone of atmospheric fronts.

Samoylenko, V. S. Tasks and methods of processing by analytical computers of maritime hydrometeorological observations.

6. Problems of agroclimatology. Edited by P. I. Koloskov. 103 pages, graphs and maps. 900 cop. 6r. 25k.

Koloskov, P. I. Problems of the climatic zoning of the territory of the USSR.

Mel', M. I. Experience of the Investigation of Relations Between the Harvest Yield of Summer Wheat and the Climatic Conditions of the Location of Cultivation.

Nikiforova, A. T. Experience of Investigation of the Relationship between the Harvest Yield of Potatoes and the Climatic Conditions of the Location of Cultivation.

Smirnova, V. A. Experience of Investigation of the Relationship between the Harvest Yield of Sunflower and the Climatic Conditions of the Location of Cultivation.

Koloskov, P. I. One of the Hypotheses for the Melioration of Climate of one Part of the USSR (for discussion).

Transactions of the Central Aerological Observatory

19. Edited by A. Kh. Khrgian. 106 pages, illustr., 1000 cop. 7r.

Minervin, Y. E., Mazin, I. P., Burkovskaya, S. N. Some New Data About the Moisture of Clouds.

Zak, E. G., Fedorova, A. A. Some results of radiolocation Observations of the Formation and Development of Precipitation in Rain-Shower Clouds.

Seregin, Yu. A. Diffusion of Fogs Supercooled from the Ground by a Silver Iodide Aerosol.

Krutskaya, L. I. Methods of Calculation of Glacial Nuclei Formed under the Influence of Freezing Reagents.

Gromova, T. N., Soloviev, A. D. Laboratory Apparatus for Investigations with Artificial Fog.

20. Radiolocation Methods of Aerological Observations. Edited by V. V. Kostarev. 95 pages, illustr. 450 cop. 5r. 80k.

Kostarev, V. V. Experience of Radiolocation Sounding of the Troposphere.

Kotov, N. F. Utilization of the Results of Radiolocation Investigations of Precipitation with the Intent of an Improvement of Functioning of the Hurricane Forecasting service.

Sal'man, E. M. Some Problems of Improvement of the Radiolocation Observation of Showers and Thunderstorms.

Shupyatskiy, A. B. Radiolocation Measurement of Medium-Sized Drops and Water Content in Strong Rains.

Stepanenko, V. D. Improvement of the Effectiveness of the Location of Meteorological Objects by a "Cobalt" Radiolocator.

Muchnik, V. M. Determination of a Thunderstorm and Shower Position by a Storm Forecasting Radiolocator.

Muchnik, V. M. Some Radiclocational Characteristics of Showers and Thunderstorms.

Shupyatskiy, A. B. A Photoimpulse Method of the Spectral Measurement of Rain Drops.

21. Edited by V. D. Reshetov. 200 pages, illustr. 1000 cop. 14r.

Reshetov, V. D. An Investigation of the Variability and Diurnal Course of the Wind in the Atmosphere.

Devyatova, V. A., Pyatyshev, R. V., Tydel'skaya, R. O., Cherenkova, I. A. Investigation of Pulsations of the Horizontal Composite of Wind Velocity up to 5 km Altitude.

Borovikov, A. M., Grudzinsky, M. Kh., Khrgian, A. Kh. On the Meteorological Conditions of the High-Altitude Tien Shan.

22 (1957). Edited by S. M. Shmeter. 124 pages, illustr.
1000 cop. 8r. 25k.

Shmeter, S. M., and Shur, G. N. Electrometeograph for Aero-
nautical Investigations.

Shur, G. N. Aeronautical Determination of the Velocities of
Turbulent Wind Gusts.

Shmeter, S. M. The Movement of a Sounding Balloon in an Ac-
celerated Air Current.

L'vov, G. M. Theoretical Investigation of the Movement of a
Free Body in an Unsettled Current.

Shmeter, S. M. On the Precision of Calculation of Richard-
son's Numbers from Raio-Wind Data.

Marfenko, O. V. Incidental Errors of the RZ-049 Radiosonde.

Polovina, I. P. Precision of Calculation of the Specific
Humidity from Data of the Measurement of Relative
Humidity in the Free Atmosphere.

Zaychikov, P. F. Preliminary Results of the Processing of
Data of the Second International Comparison of Radio-
sondes.

Zaychikov, P. F., and Kryazheva, V. A. Some Results of In-
vestigations of Functioning of a Vane Anemometer in
the Case of Air Density Variation.

Zaychikov, P. F. Precision of Measurement of the Velocity of
Horizontal Movements in Free Atmosphere by the Means
of a Comb-Shaped Anemometer and Some Problems of the
Methodology of Measurements.

Shupyatskiy, A. B. Measurement of Velocity and Form of Rain
Drops.

Shupyatskiy, A. B. Radiolocation Investigation of Preci-
pitation by the Calibrated Rain Gage Method.

Krechmer, S. I. Field Gradientometer for the Measurement of
Air Temperature Gradients.

Zaychikov, P. F. Results of Aerological Observations of the
Drifting Station S-4 during the 1949 Expedition.

Malkina, A. D. Data of Investigations of Some Physicochemical Properties of Iodide Particles which Serve as Ice-Producing Nuclei.

23 (1957). Edited by V. G. Kastrov. 108 pages, illustr. 1150 cop. 7r. 35k.

Reshetov, V. D. Analysis of Two Cases of Cyclo- and Anti-cyclogenesis.

Gaygerov, S. S., and Kastrov, V. G. Experience of Measurement of a Vertical Turbulent Warmth Current in the Lower Part of the Troposphere.

Faraponova, G. P. Measurements of the Index of Solar Light Weakening in the Atmosphere.

Belov, V. F. Investigation of Diffusion Indicators in the Troposphere and Lower Stratosphere.

Kastrov, V. G. On the Diurnal Course of Temperature in the Lower Part of the Troposphere.

Savikovskiy, I. A. Observations of Solar Radiation in the Free Atmosphere.

24. Edited by S. M. Shmeter. 75 pages, ill., 800 cop. 4r. 55k.

Pinus, N. Z., Shmeter, S. M. Some Properties of an Atmospheric Turbulence Over Mountainous Regions.

Khrgian, A. Kh. Vertical Movements of Atmosphere and Wind Over Mountainous Country.

Shmeter, S. M. On the Passing of Aerial Currents Around Mountainous Obstacles.

Shur, G. N. Method and Apparatus for Obtaining Certain Data on Atmospheric Turbulence from an Airplane.

Reshchikova, A. A. Toward the Problem of the Calculation of Vertical Air Velocities from the Overloading of Airplanes.

Zaychikov, P. F., Silayeva, V. I. Results of Laboratory Investigations of Characteristic Parameters of Vanes of a Comblike Raiosonde.

ZAYCHIKOV, P. F., Litvinova, V. D. Relationship of the Flight Altitude of Packs of Radiosonde Sheets to Temperature and Atmospheric Turbulence.

Silayeva, V. I., Litvinova, V. D. Some Results of Measurements of Vertical Wind Gradients in Flights of Free Aerostats.

Reshetov, V. D. On the Radiational Overheating of the Com-like Radiosonde and Its Influence on the Results of Atmospheric Soundings.

MAZIN, I. P. On the Radio-Wind Observations from a Moving Ship.

Transactions of the Scientific Research Institute for the for the Construction of Hydrometeorological Instruments.

6. Edited by V.I. Efremychev. 136 pages, ill. 800 cop. 8r. 75k.

Usol'tsev, V. A. Automatic Dew Point Hygrometer.

Nepomnyashchiy, S. I. Airplane Remote Meteorological Station.

Varzhenevsky, N. S. Pellicular Hygrometer.

Danilin. A. I. Radioactive Snow Gage for Itinerary Snow Surveying.

Manuylov, K. N., and Shestopalov, L. A. Soil Bimetallic Thermometer.

Shenderovich, I. M. Depth Gage for the Open Sea.

Nepomnyashchiy, S. I. Electric Motor for Radiosondes.

Shtein, N. I. Conditions of Maximal Power Output of the SVCh Electronic Tubes Used in Radiosondes.

Shtein, N. I., and Kozhinskaya, B. S. Experimental Investigation of the Automodulation Regimen of a Tube Autogenerator.

Shtein, N. I. Calculation of Coupling Elements in Ultra-shortwave Transmitters with Double Lines.

Transactions of the Ukrainian Scientific Research Hydrometeorological Institute.

12. Problems of Regional Synoptics. Edited by I. N. Ponomarenko. 132 pages, graphs and maps 850 cop. 8r. 50k.

Prikhotko, G. F. The Connection Between Low Cloudiness and Meteorological Phenomena.

Prikhotko, G. F. The Connection Between Low Cloudiness and Synoptic Processes in the Ukraine.

Gavrilenko, N. M. Some Special Features of the Forecasting of Visibility during Low Snowstorm in Ukraine.

Gavrilenko, N. M. Visibility during Snowfalls and Some Special Features of Its Forecasting.

Antonov, P. D., Trunova, N. N. Meteorological and Synoptic Characteristic of Thunderstorms and Their Forecasting in the Chernovits region.

Baranova, N. E. Late Spring Frosts in Crimea.

Volevakha, N. M., Volevakha, V. A. On the Possibility of Forecasting the Beginning of Intensive Sleet Formations.

Ponomarankó, I. N. Toward the Utilization of Temperature Fields at the 700 and 500 mb Surface Levels for the Forecasting of Cyclone and Anticyclone Displacements.

Ponomarenko, I. N. The Baric-Circulatory Regime of the Southern European Territory of the USSR and Some Special Features of Seasonal Weather Conditions.

Burtzev, D. A., Strizhkova, E. M. Some Characteristics and Synoptic Conditions of Formation and Melting of the Snow Cover in the Crimean mountains.

Chernyakova, A. P. Northeastern storms at the Black and Azov Seas during the displacement of cyclones from Asia Minor to the southeast Black Sea.

13. Problems of Climatology and Meteorology. Edited by N. I. Guk, 132 pages, graphs and maps, 1100 cop. 8r. 70k.

Rozova, E. S. The Temperature Regime During a Prolonged Drought in the Warm Period of the Year.

Buchinskiy, I. E. Zoning of Ukraine According to the degree of humidification.

Shakhnovich, A. V., and Vil'kens, A. A. The Frost Hazard to the Territory of a single Farm (Soviet Wine-Producing Farm, "Uzhhorod")

Guk, N. I. Properties of Isolines and of Their Systems.

Babichonko, V. N. On the Particularly Abundant Rains on the Territory of Ukraine.

Muchnik, V. M. Some Problems of the Mechanism of Hail Formation.

Muchnik, V. M. Relation of the Probability of Discovery of Precipitation Foci, by Means of a Locator, to the Distance.

Volevakha, N. M. On the Influence of Orography on Sleet Deposits.

Prikhotko, G. F. Some Characteristics of Low Cloudiness in the Ukraine.

Polovina, I. P. The Annual Course of Specific Humidity in the Free Atmosphere Over the European Territory of the USSR.

Bogdanov, P. G. The Solar Climate of Slopes in the South-western Part of the Black Sea Zone of the Ukrainian SSR.

Muchnik, V. M. Relationship of Electrization to the Angle and Velocity of the Collision Between Balls and Drops in an Electric Field.

Guk, N. I. Activity of the Poltava Meteorological System.

14. Problems of Agrometeorology. Edited by A. M. Kekukh., 111 pages, graphs and maps. 950 cop. 7r 70 k.

Sapozhnikova, S. A. The Agroclimatological Zones of Ukraine.

LICHIKAKI, V. M. Evaluation of the Agroclimatological Conditions of Hibernation of Winter Crops on the Territory of the Ukrainian SSR.

Kekukh, A. M., and Mikhailova, N. I. The Consumption of Water by the Sugar Beet in Beetsowing Regions of the Ukraine.

Iovonko, N. G., Galinskaya, M. S. The Water Regime of Soil in Connection with the New System of Cultivation.

Kopachevskaya, M. N. The Placement of Minimal Temperature in the 2-Meter Surface Layer of Air in Spring and Autumn.

Buchinsky, I. E. On the Relationship of Meteorological Elements According to Observations on Stations and Fields During Draught Days.

Goys, N. I. Method of Calculation of Monthly Totals of Diffused and Summary Radiation from Urgent Observations.

Borison, A. A. On the Meteorological Effectiveness of Irrigation and Forest Belts in the North-Crimean Canal Region.

Sudakovich, Yu. E. Microclimatological Characteristic of the Frost Hazard of the Nikitskiy Botanical Garden Territory.

Transactions of the Far-Eastern Scientific Research Hydro-Meteorological Institute

3. Collection of articles on the regional synoptics and aerology of the Far East. Edited by V. L. Arkhangelsky 100 pages, graphs and maps. 700 cop. 6r. 25k.

Barabashkina, A. P., and Leskova, E. A. Investigation of Typhoons Coming to the Sea of Japan and the Maritime Region.

Barabashkina, A. P., and Leskova, E. A. On the Natural Synoptic Periods in Eastern Siberia and the Far East.

Varle, E. K. Toward the Problem of the Correctness of Determination of Mean Wind Velocities in Free Atmospheric Precipitation in the Sikhote-Aliniya region and the Surrounding Territory.

Arkhangel'skiy, V. L. On the Influence of Sikhote-Aliniya on the Thermic Condition of the Lower Half of the Troposphere During the 1st and 2nd Phases of the Summer Monsoon.

Vysotskaya, E. A. The Synoptic Conditions of Strong Rains in the Middle and Lower Amur River Basin During the Summer-Autumn Period.

4. Hydrological Outline of the Zeya and Bureya River Basins. Edited by N. Ya. Podvishenskaya. 120 pages, graphs and maps, 800 cop. 7r. 20k.
6. Collection of articles on the agrometeorology and synoptics of the Far East. 104 pages, graphs and maps, 650 cop. 6r. 70k.

Kalmykova, V. V. A Characteristic of the Agroclimatological Conditions of Corn Cultivation in the Maritime Kray.

Verle, E. K., and Svinukhov, G. V. Radiational Balance of the Territory of Maritime Kray.

Onikul, R. I. First Autumn Frost on Sakhalin.

Petrenko, V. K. Spring and Autumn Frost in the Maritime Kray.

Kalendov, A. A. Some conditions of the realization of cyclone and anticyclone circulation over the Sea of Okhotsk in the Spring-Summer Period.

Transactions of the Tbilisi Scientific Research Hydrometeorological Institute

3. Transactions of the All-Union Conference for the Study of Mountainous Snow Cover. Edited by G. N. Khmaladze. 132 pages, graphs and maps. 800 cop. 9r. 50k.

Khmaladze, G. N. Tasks and Methods of Snow Surveying in the Caucasus Mountains.

Kosarev, V. M. The Methodology of Snow Surveying in the Mountains of Central Asia.

Papinashvili, K. I., Gigineyshvili, V. M., Napetvaridze, E. A. Aerossynoptic Conditions of the Formation and

Melting of the Snow Cover in the Transcaucasian Mountains.

Drozdov, O. A., Lebedev, A. N., Pastukh, V. P., Shcherbakova. Requirements of Climatology in Reference to Snow Surveying in the Mountains.

Iveronova, M. I. Some Results of Observations of the Distribution of Snow Cover in the Mountains of Tien Shan (Torskey Alatau Ridge, the Chon-Kzyl-Su River Basin.

Vlasova, S. V. Study of the Snow Cover and Glaciers in the Mountains of the Azerbaydzhan SSR and Dagestan ASSR.

Pogosyan, A. A. Snow Surveying Operations of the Administration of Hydrometeoservice of the Armenian SSR.

Drobyshev, O.A. The Condition and Development of Snow Surveying and Glaciological Operations in the Mountains of Georgia.

Pastukhova, G. E. Utilization of the Results of Snow Surveys in Hydrological Forecasting.

Barabash, A. Ya. Utilization of Data of Itinerary Snow Surveys in Operative Work by the Sector of Hydrological Forecasting.

Tzomaya, V. Sh. The Methodology of Itinerary Snow Surveys and Analysis of Observational Data.

Glebov, P. A. On the Improvement of Methodology of the Study of Snow Cover in Mountainous Regions.

Bartishvili, I. T. The Precision of Measurement of Hard Precipitation by the Instrumental Method.

Vaznov, A. N. On New Methods of Observation of Snow Cover in Mountains.

Gvakharya, V. K. Development of Snow Surveying Operations in Caucasus (1956-1960).

Chiropadze, G. I. Snow Slides in the Central Part of the Main Caucasian Ridge.

Tzomaya, V. Sh. Episodic and Stationary Glaciological Observations.

Tushinskiy, G. K. Program and Methodology of the Investigation of Snow Strata with the Purpose of Avalanche Hazard Forecasting. Decisions of the All-Union Conference for the Study of Snow Cover in Mountains, convened at Tbilisi from 22 October to 25 October 1956.

Transactions of the Central Asiatic Scientific Research Hydrometeorological Institute.

14. Bugayev, V. A., Dzhordzhio, V. A., Petrosyants, M. A. Romanov, N. N. Aerosynoptic Conditions of Airplane Bump in Central Asia. Edited by V. A. Bugayev. 46 pages, ill. 800 cop. 2r. 65 k.

Collections of the Works of Observatories

Collection of works of the Tzymlyansk Hydrogeoclogical Observatory. #1. Edited by P. P. Kokoulin. 160 pgs., ill., 460 cop. 12r. 60k.

Kokoulin, P. P. The Tzymlyansk Reservoir.

Kokoulin, P. P., Kokoulina, L. V. Some Observation Data on the Formation of the Banks of Tzymlyansk Reservoir.

Kokoulin, P. P., Semenov, E. F. Methodology and Results of Observations of Swell in the Tzymlyansk Reservoir During 1953-1955.

Shpak, I. S. Variation of Meteorological Elements During the Flow of Aerial Current at a Reservoir.

Kokoulin, P. P., Yatzentovskiy, G. L. Toward the Problem of Estimating Evaporation from the Surface of Reservoirs.

Rogozhkin, V. I. The Basic Features of the Regimen of Gases Dissolved in Water of the Tzymlyansk Reservoir (1952-1956).

-Collection of works of the Minsk hydrometeorological observatory. #1. Edited by A. G. Bulavko. 99 pgs., ill., 450 cop. 6r.

Bulavko, A. G. 25 Years of the Byelorussian Scientific Research Geophysical Observatory.

Medshitov, R. M. The Conditions of Formation and the Forecast of Frosts in the Byelorussian SSR.

Savikovsky, I. A. Results of Meteorological Observations during the Solar Eclipse of 4 April 1959 on the Territory of the BSSR.

Anistarov, V. A. The Swamp, Forest and Lake Nature of Water Inflow of Some Rivers of the BSSR.

Klyuyeva, K. A. The Most Rational Method of Calculation of the Mean Precipitation Layer for Hydrological Computations in the Conditions of the Belorussian SSR.

Bulavko, A. G. On the Possibility of Utilization of the Standard Calibration Table for a Hydrometrecal, Type Zh-3, Air-Vane.

Anistrov, V. A. The Experience of Surface Determination by the Weight Method in Hydrological and Water-Economic Calculations.

-Collection of works of the Ashabad Hydrometeorological observatory. #1. Edited by I. G. Oksenich. 175 pages, graphs. 600 cop.

Myagrov, N. Y., Oksenich, I. G. Climatic Regions of Turkmenia.

Balakirev, E. K. Hail and Thunderstorms in Turkmenia.

Mordvinov, N. A. Experience of the Analysis of the Influence of Meteorological Conditions on the Development of Pasture Vegetation and on the Accomplishment of Productive Processes in Animal Husbandry.

Leshchinsky, G. T. Analysis of Formation and a Method of Calculation of Rain Run-off from Takyrd Water Collection.

Kirsta, B. T. Mean Perennial Drainage of Rivers of the Northeastern Slope of Kopet-Dag.

Kirsta, B. T. Hard Precipitation and Snow Cover at Kopet-Dag.

Kirsta, B. T. Toward the Problem of Estimation of Summary Evaporation at Kopet-Dag.

Myagkov, N. Ya. Frosts (Experience of a Thematic Bibliography).
